**DETAILED ACTION**

1. This action is responsive to communications: Amendment, filed on 2/11/2008.

This action is non-final.

2. Claims 1-3 and 6-8 are pending in this application. Claims 1-3 are independent claims. In the Amendment, filed on 2/11/2008, claim 7 was amended, and claims 4-5 were canceled.

This application is a 371 of PCT/IB04/02236 filed 7/2/2004, and United Kingdom application 0316168.4 filed 7/10/2003.

3. The present title of the invention is "Method of generating a map display for a graphical user interface" as filed originally.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 limitation claims "a computer storage medium ...", since the specification does not disclose what a computer storage medium is, it is not clear the scope of the medium.

***Allowable Subject Matter***

4. Claims 1-3 and 7-8 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

As per claims 1, 2 or 3, the closest prior art by Yost does not explicitly disclose displaying a map highlighting a first area on the map surrounding a first position fix wherein the size of the area corresponds to the accuracy of the first position fix; and highlighting a second area on the map surrounding a second position fix wherein the size of the second area corresponds to the accuracy of the second position fix.

***Response to Arguments***

Applicant's arguments with respect to claim 6 have been considered but are moot in view of the new ground(s) of rejection.
